

QUICK START USER GUIDE

Wi AudioLink™ Pro

www.widigitalsystems.com

Charging

1. Plug the AC Charger into a power socket.
2. Connect the USB Y-Split power cable to the USB port on the AC Charger.
3. Connect one of the two mini USB connectors into the transmitter USB port.
4. Connect the second mini USB connector into the receiver USB port.
5. The Power/Status LED will turn to solid Red ON.
6. When charging is complete the Red LED will turn OFF.
7. Remove the charging cable and the AC Charger and store in the carrying case. The battery will last 4 to 6 hours of continuous operation.

Pairing (Only If Needed)

1. First turn ON the transmitter (Tx) and the receiver (Rx) units by pressing and holding the POWER button ②, ② on each of the units for 2 seconds.
2. Press and hold the LINK button ⑦ on the transmitter (Tx) for 3 seconds. The Power/Status LED on the transmitter will start fast flashing. The transmitter is now in a Pairing mode and ready to search for the receiver.
3. Press and hold the LINK button ⑥ on the receiver (Rx) for 3 seconds. The Power/Status LED on the receiver will start fast flashing. The receiver is now in a Pairing mode and ready to be found by the transmitter.
4. Once the transmitter links with the receiver the Power/Status LED on both devices will turn to solid Green.

Transmitter Connection

1. Connect the 1/8" stereo male end of the cable into the "Audio Input" jack on the transmitter.
2. Route the audio cable beneath the belt clip as shown to prevent accidental disconnection of the cable.
3. Connect the 1/4" mono male end of the cable into the electric guitar. Use the 1/4" stereo cable for digital piano, keyboard or electronic drums connection.
4. Power up the transmitter by pressing and holding the POWER button **2** for 2 seconds.
5. *Please refer to the "Transmitter Button Function Matrix" section of this Quick Guide for Active Guitars and Stereo Line-in MODE **9** settings.*
6. Attach the transmitter to your belt. Alternatively the receiver can be placed next to the musical instrument.

Receiver Connection

PLEASE PROTECT YOUR EARS! Prolonged use of headphones or In-Ear personal monitors at high volumes may affect your hearing capacity or may result in noise induced hearing loss (NHL).

1. Connect the 1/8" stereo end of the cable into the "Audio Input" jack on the receiver.
2. Route the audio cable beneath the belt clip as shown to prevent accidental disconnection of the cable.
3. Connect the 1/4" male end of the cable to the inputs of your amplifier, powered monitor, sound system, mixer or foot pedal. Use the L/MONO and R jacks on your gear when using the system in stereo.
4. Power up the receiver by pressing and holding the POWER button **2** for 2 seconds.
5. Attach the receiver to your belt. Alternatively the receiver can be placed next to the mixer, amp, foot pedal or stomp box.
